GEN3i Migration Services (GMS), a leading provider of data migration solutions, has achieved Amazon Web Services (AWS) Select Tier Partner Network (APN) status through the Accelerated Development Program offered by its distribution partner, Carahsoft Technology Corp.

RESTON, Va. — September 5, 2023, September 5, 2023 /PRNewswire-PRWeb/ --

[GEN3i Migration Services](#) (GMS), a leading provider of data migration solutions, is thrilled to announce that it has achieved Amazon Web Services (AWS) Select Tier Partner Network (APN) status through the Accelerated Development Program offered by its distribution partner, [Carahsoft Technology Corp.](#), The Trusted Government IT Solutions Provider®. The AWS APN Select Tier Partner status allows GMS to offer a range of solutions to its customers, including data migration and storage, disaster recovery, and cloud optimization, providing greater

value with access to a wider range of cloud services and features, as well as AWS support. This accomplishment was achieved through Carahsoft's Accelerated Partner Development Program that fast-tracks partners through the AWS Partner Program, recognizing the technical expertise and proven customer success in delivering AWS solutions.

"Carahsoft has been a valuable partner in helping us to achieve this significant milestone," said Patrick Vaughan, CEO of GEN3i Migration Services. "We are committed to helping clients leverage the many benefits of the cloud whether that means building a more resilient enterprise or unlocking the value of data in legacy systems. The GEN3i Migration Services team has the tools and expertise to help, and we are excited to bring these capabilities to our customers."

"We are pleased to support GEN3i through our Accelerated Development Program, enabling AWS customers to more easily procure and deploy GEN3i's cloud solutions to drive transformative outcomes," said Sehar Wahla, Director of Amazon Web Services (AWS) Partner Business Development at Carahsoft. "Together with GEN3i and our reseller partners, we are committed to delivering excellence in cloud innovation, and we look forward to continuing the momentum of this partnership."

The AWS Partner Network (APN) is a global program designed to help AWS customers identify and connect with qualified AWS Partners. The APN recognizes partners who have demonstrated technical expertise and proven customer success in delivering AWS solutions. With this accomplishment, GMS is proud to be part of the APN community and looks forward to continuing to work with AWS and Carahsoft to provide the best cloud migration solutions available.

About GEN3i Migration Services

GEN3i Migration Services is a team of subject matter experts with over a decade delivering in the processes and technologies of Backup and Recovery, Archiving, eDiscovery, and Information Governance. GMS has extensive experience implementing these technologies, facilitating the migration of data and integrating disparate platforms into seamless solutions. GMS offers unbiased assessments of technology and can

help get the most from your current solution or implement a new system that meets all your specific needs and compliance requirements, regardless of vendor preferences. Visit us at www.gen3i.com.
